

I listen to K-Love daily and love it. It's programming is unique and serves the large local Christian population. Such a station is vital when you consider that many of the other listening options contain material that you can't be sure is appropriate for your family. With the lyrics of some songs today, and the wild stunts and "trash" talk that you hear from some djs and talk shows, we must be able to have one station that plays great music that ALL ages enjoy, and which also has a positive message for Christians or those interested in enhancing their spiritual/moral sides. Please keep K-Love where it is with no changes.
